

PadPak® JR

Superior protection,
Small footprint

Cost effective

Less material is needed to provide optimal protection

Simple

Converter is easy to install and operate

Flexible

Converter is mobile and able to integrate into most pack stations

The **cost-effective solution** for **excellent cushioning** in one easy to use machine.

The PadPak Junior (JR) converts 2 or 3 ply paper into cushioning pads which can be used to protect products of all shapes and sizes during shipment. The converter is fast, mobile, easy to install and use and requires no special training.

Go Green

Our company works with FSC and SFI certified suppliers. Paper is a recyclable and a renewable source.

- Feed Rate: 12" per second
- Cut Method: Manual Lever

Paper

- Paper Options:
 - 2-Ply: 50/50
 - 3-Ply: 30/30/30
- Roll length (ft.): 450, 900 (50/50 Only)
- Paper width: 27"

Our Added Value

Packaging Engineering

Ranpak will analyze your current packaging solution and perform a drop test, demonstrating how much shock is transmitted to your products through the packaging. Ranpak then suggests proper packaging techniques to improve protection and save costs.

Integrated Applications

The Ranpak Custom Engineering department can design modifications, customizations and other innovative solutions to integrate the packaging converter anywhere around, above or under a packing area.

Packaging Training

Training from our packaging experts can help your packers use up to 20% less packing material without compromising the quality of the packaging.

Successful in these industries
